<ul style="list-style-type: none"> • Victoria Mooers is an amazing TA. She explained material far far far better than Professor Vergote. Her method of elucidating concepts was clear and concise. It was through her that I could see a faint connection between lectures and homework material. • Victoria's recitations and office hours were very helpful throughout the semester. She was good at explaining the math and intuition behind the problems we were solving. • Victoria is one of the most organized and intelligent TAs I have had at Columbia. Her recitation materials were always the most organized and easiest to follow, and her recitation sessions were succinct and helpful. • Responds quickly, is very available and kind. • Victoria is one of my favorite TAs I've ever had. Her notes are so clear and her explanations are so clear and logical. Her recitations were extremely helpful and she also just seemed like a really nice person. • Answered questions kindly and clearly during recitation • I loved Victoria's recitation section. She was able to explain topics we learned in class in a concise and understandable manner and my notes from her section were very useful when I needed to get homework done. If there were any topics I was confused about she could always clear up any issues. She came to each section with an enthusiastic attitude and was very receptive to any questions we may have had. Her breakdowns of our recitation materials were always easy to follow and they made taking this course a positive experience for me. I genuinely wish my recitation sections in my other classes were more like this one. • She was amazing, amazing, amazing. She really goes out of her way to help us learn and is so willing to answer any questions we have. Can't recommend her enough. She really is one of the best TA's I've had in an economics course. • - Very approachable • She is amazing! Her recitation was always straight forward and she answered all the questions that were asked. • Victoria was got at explaining, Very well organized with her notes, approachable, and well manage of timing. She was always there to answer any question. Very Helpful. Excellent!
